

**Quality & Productivity**  
we make fuse insulation power protect tube

Vulcanized fiber tube  
G9 melamine tube  
Synthetic Arc Quenching  
Filament Wound Tube  
Vulcanized Fiber complex  
fiberglass tube  
Vulcanized fiber epoxy  
canvas tube  
Motor Shaft fiber bushing  
Insulating Kraft Paper Sleeves

Walk The Talk

## Insulating Kraft Paper Sleeves

Insulating Kraft Paper Sleeves is made of multilayer insulating kraft paper, which is pressed into shape by dipping the rubber ring in the glue pool, and then cut, dipping the insulation pool, and drying the finished product.

The company's insulating tube, complete specifications, and colors, according to the specific needs of customers can be processed to produce a variety of caliber sizes (6-1010mm) and different color varieties of products.

**Advantages** :It's widely used in the motor insulation and motor both

ends of the insulation, High temperature and voltage resistance,the product has high strength, wear resistance, corrosion resistance, good electrical insulation, dimensional stability.

**Color**: Nature

**Size**: Can produce various Size according per customer's requirements of ID as 5 mm to 65mm

**Length**:8mm to 1000mm

**Surface treatment**: Can produce various Size according per customer's requirements

**Custom**:. Can produce various Size according per customer's requirements

**Supply Ability**:100000 meter/meters per Month

**Package Type**: suitable packing for export.

- 1.Inside packing: a plastic bag or woven belt
- 2.Outside packing: carton box and pallet.
- 3.According customer requirement.

**Lead Time** :

Quantity(Kilograms)	1 - 100	>100
Est. Time(days)	5	To be negotiated

### TEST VALUE

Processing:

It is made of multilayer insulating kraft paper, which is pressed into shape by dipping the rubber ring in the glue pool, and then cut, dipping the insulation pool, and drying the finished product.

NO	TEST ITEM	UNIT	TEST
1	density	g/m	1.15
2	Breakdown voltage strength	kv	<3kv
3	Agglutination coefficient	cm <sup>2</sup>	60
4	water absorption	%	50
5	moisture	%	4-8

Remark:
